

TEDEX - harness

Tedex is made from soft and flexible uncoated webbing. It is the economical alternative for drivers who like lightness and supple, easy adjustment.

- Suitable for all types of driving and popular for club level marathon use.
- Designed to make your driving safe and easy.
- Tedex is inexpensive, yet well designed and comfortable.
- Highly popular as a beginners harness with full availability of parts for present and future requirements.

Washable

Design features

- Very light and easy to adjust.
- Moveable saddle pads for easy adjustment to suit different conformation.
- Single saddle has sliding backband.
- Easily adjusted stop tabs are available as an extra, to fix the backband on single harness for 4 wheeled vehicles. (Code 480003).
- Pair harness can be used either side of the pole with adjustment from both sides of the horse.

Suitable for

- Club level competition
- Pleasure driving
- Leisure

Materials

- FITTINGS

Stainless steel throughout.

- STRAPPING

Woven poly web, doubled and stitched. Traces and backbands are quadruple thickness with reinforcement around holes.

- BEARING SURFACES

Textured waffle linings over a padded foam core.

- REINS

Rubber weave hand parts for good all weather handling.

Options & Extras

All individual parts are available separately (pages 27-28).

Maintenance

Hose down or tub wash in warm soapy water. Hang to dry. Tedex can also be cleaned in a washing machine. (Wool cycle)

Carry & Storage Bag

Each horse set is packed in an individual ventilated synthetic bag.
