

## Tedex webbing harness

### Why Choose Tedex?

Tedex has been a firm favourite among pleasure drivers for over 30 years. Suitable for all driving activities, including competition conditions. Light and easy to handle.

Tedex is available in sets and parts, with compatibility throughout the sizes. Economical choice for drivers who prefer a lightweight, supple and simple harness.

- Strapping - Stitched multi-ply woven webbing. Heat sealed holes. Reinforced extra stitching on stress points of traces and backbands
- Linings - Soft waffle textured anti-gall PVC with padded foam core for comfort and easy cleaning.
- Bridle - Waffle lined headpiece and noseband. All bridle strapping is 19mm
- Blinkers - Well shaped for good eye clearance
- Reins - S-Grip handparts
- Breastplate - Waffle lined and padded
- Wither - Double wither straps on pony, cob, full and extra full. Single wither on Shetland 25mm
- Traces - Four ply webbing with reinforcement stitching around holes. Dee end
- Saddle - Steel tree. Sliding backband
- Saddle Pads - Saddle pads are attached by hook and loop. Can be positioned to suit horse conformation
- Girth Straps - 25mm (1 inch) multi-ply and double stitched
- Girth - Waffle lined and padded. Roller buckles
- Tugs - Adjustable size to suit different shaft types
- Breeching - Comfortable waffle padded seat with double hip straps
- Crupper - Soft waffle dock
- Maintenance - Machine washable, tub wash or pressure hose

Average weight per standard single set –

Shetland 5.3kg, Pony 6kg, Cob/Full 6.7kg, Extra Full 7kg

Each Tedex Harness set is supplied in a ventilated harness bag
