EXCEPTIONAL Quality & Expertise

Design Focus

- Horse comfort
- Driver convenience
- Practical functionality
- Reliability & durability

Fifty years of design excellence has resulted in a unique understanding of today's driving sport and the requirements of a modern harness. Through collaboration with top competition drivers, as well as customer feedback, Zilco's modern range of harness caters for all, from grass roots to international level.

Practicality

Zilco harness is life proof, designed for everyday use and minimal maintenance by both the professional and recreational user. Warm soapy water is all that this required to bring your harness back to optimum condition.

Versatility

Your harness, your way. Sold in parts or sets, with many parts interchangeable between sizes and styles. Zilco harness is priced by component so you only ever pay for what you need, no more, no less.

Workmanship

Zilco harness is a precision manufactured product. Attention to detail is the central production philosophy right down to stitch level. The Zilco production team pride themselves on producing a product fit for modern driving demands using their experience and desire to be the best.

Materials

Zilco component materials are manufactured specifically to exacting standards, so harness will never let you down.

- High grade stainless steel fittings.
- Buckles and metal fittings are produced to Zilco's own design. Manufacture is done in-house to ensure top quality right through the production process from raw metal components to finished product.
- Zilco's unique moulded strapping comprises a core of woven webbing and a comfort outer coating. This provides superior strength, wear resistance and good handling qualities in the toughest conditions.
- Pressure points are padded with a range of shock absorbing materials appropriate for the load area.

Technology

Zilco continues to embrace material and manufacturing technology evolution. Moulded plastic technology is employed to ensure the consistency and performance of ergonomic parts and pads. 3D printers produce accurate and efficient prototypes for rapid testing, refinement and introduction to the driving range.

Classic Harness

Classic Harness is Zilco's original design with over 50 years of production.

Why choose Classic?

Classic is a versatile harness for all popular driving activities. It has traditional proportions in keeping for formal and traditional occasions, such as showing, dressage and cones. It also has the core strength to withstand the rigours of marathon and tough competition conditions. This makes it an excellent all round harness that can be used for a variety of disciplines.

Classic parts are interchangeable throughout the size range and combinations, making it the perfect choice for present and future aspirations!

Perfect for drivers' present needs and future ambitions!

SIZES

Pony, Cob and Full.
(Sizes can be mixed)

COMBINATIONS

Single, pair, tandem and team

Unique Options for Classic Team Harness

Wheeler options

A. WHEELER REINS

S-Grip reins with sewn suede strip on the hand section. Gives a similar "feel" in the hand to S-Grip team leader reins (also optional) and protects rein from joiners and clamps.

Pony	445cm (14'7")	434523
Cob	472cm (15'6")	434525
Full	508cm (16'8")	434527

B. WHEELER REINS

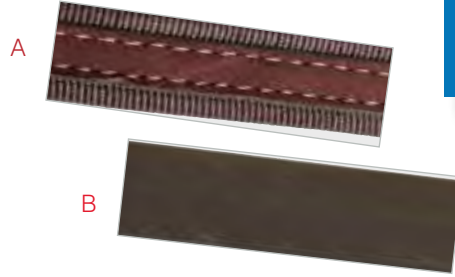

Z-grip reins with smooth hand section, without sewn stops. (Full size only)
This style is compatible with Z-Grip reins as supplied as standard in sets.

Full	508cm (16'8")	434507
------	---------------	--------

C. WHEELER SADDLES

Wheeler saddle with Centre Pedestal - Available on request.

Page 51 for information

Classic team harness is supplied as standard with Z-grip reins. However other rein choices are available to suit driver preferences (on request).
(See page 38-39 for complete rein range)

Leader options

D. LEADER REINS

S-Grip reins with sewn suede strip along hand part and sewn leatherette stops at intervals to assist grip and control.

This style is compatible with A.

Pony	640cm (21')	434313
Cob	732cm (24')	434315
Full Size	858cm (28')	434317

E. REIN JOINER

For joining leader and wheeler reins for marathon driving.

22mm (7/8") buckle with hook & loop closure.

434000 (Each)

NB. Zilco reins do not have punched holes for joiners due to variances and individuality of driver preferences. It is necessary for user to punch holes as required.

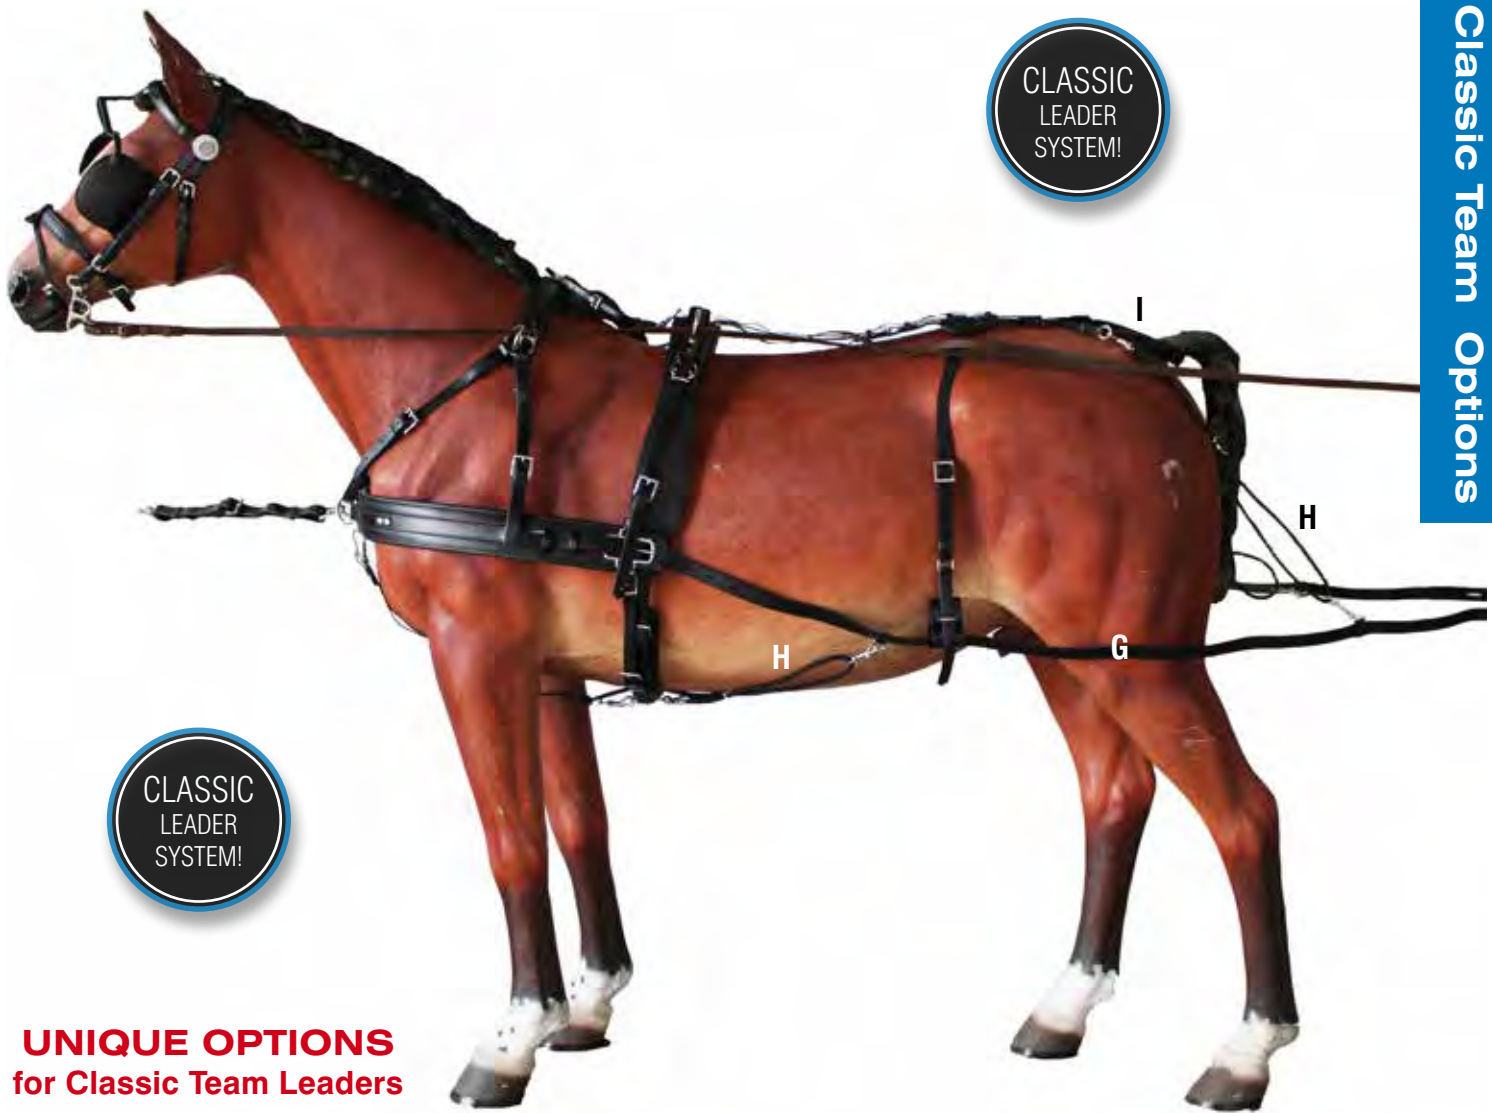

F. QUICK RELEASE LEADER JOINER STRAP

Suitable for cob and full size.

Width: 32mm (1 1/4") Adjustment: 45 - 62cm (18-24 inches)

432518

CLASSIC LEADER SYSTEM!

CLASSIC LEADER SYSTEM!

UNIQUE OPTIONS for Classic Team Leaders

G "CLASSIC TEAM SYSTEM" leader traces - NEW!

Upward rear dee positioned for bungee strap to crupper. Holds trace clear of legs. Downward front dee for bungee strap to dee on girth. Prevent traces flipping up over the horse's hindquarters on tight turns.

Small	160cm (63")	436103
Medium	178cm (70")	436105
Large	196cm (77")	436107
X Large	213cm (84")	436108
XX Large	236cm (93")	436109

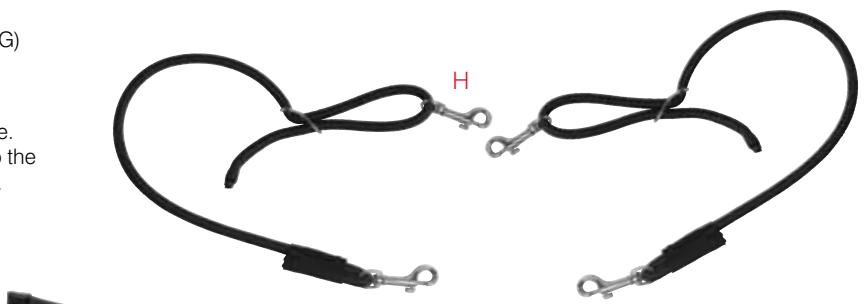

H. "CLASSIC TEAM SYSTEM" Leader Bungees - NEW!

Designed to be used in conjunction with team leader traces (G) and leader cruppers (I).

Dual purpose: Connects leader crupper dock to upward dee on trace to hold up trace and help prevent a leg over the trace. Also used to connect girth to downward dee on trace, to stop the traces flipping up over the horse's hindquarters on tight turns. Sold in pairs.

445213	Small	54-85cm (21-33")
445215	Medium	63-100cm (25-39")
445217	Large	68-115cm (27-45")

I. "CLASSIC TEAM SYSTEM" Leader Crupper - NEW!

Designed to be used in conjunction with team leader traces and bungees (G + H). Crupper with no buckles on dock, with dees so bungees can be connected to traces for holding up traces between leaders and team bars.

	Length	Min.	Max.	
Pony	80cm (31 1/2")	95cm (37 1/2")	444503	
Cob	90cm (35 1/2")	105cm (41 ")	444505	
Full	100cm (39")	125cm (49 ")	444507	

CLASSIC LEADER SYSTEM!

Elite Harness

Mareike Harm - DE

Elite is a more substantial harness for larger cobs and horses

Why choose Elite?

Elite is popular for horses of sturdier proportions. It has heavier strapping and parts to suit larger animals.

The wide load bearing surfaces of breastplate, girth, saddle and breeching are well suited to heavy carriages and extreme working conditions. It has the core strength to withstand the rigours of marathon and tough competition or working conditions.

The traces buckle into the breastplate in the traditional style. Popular for both commercial driving and driving trials.

Elite parts are interchangeable throughout the size range and combinations.

Sturdy and robust with wide bearing surfaces !

SIZES

Cob, Full and Extra Full
(Sizes can be mixed)

COMBINATIONS

Single, pair and team

FEATURES

Quick release breeching straps, martingales and pole straps. Quick release tugs to suit all shaft styles.

Wheeler

ZGB Harness

ZGB is a more substantial harness for larger cobs and horses. COMBINATION BREASTPLATE for easy single to pair conversion.

Why choose ZGB?

ZGB has heavier strapping and parts to suit larger animals. The only difference between Elite and ZGB is the breastplate style. ZGB has a combination breastplate and traces allowing easy change between singles and multiples.

The wide load bearing surfaces of breastplate, girth, saddle and breeching are well suited to heavy carriages and extreme working conditions. ZGB has excellent core strength to withstand the rigours of marathon and tough competition or working conditions.

Popular for both commercial driving and driving trials.

ZGB parts are interchangeable throughout the size range and combinations.

COMBINATION BREASTPLATE
Sturdy and robust with wide bearing surfaces!

SIZES

Cob, Full and Extra Full.
(Sizes can be mixed)

COMBINATIONS

Single, pair and team

FEATURES

Quick release breeching straps, martingales and pole straps.
Combination breastplate.
Quick release tugs to suit all shaft styles.

Supplied with the Fine Patent Bridle and Classic pony size.

	Length	Width	
Shetland	43cm (17")	13mm (½")	444063
Pony	44cm (17 ½")	13mm (½")	444065

G. Patent Face Drop

Fits onto poll strap of the winker stay. Soft wire core for adjustability and stability. Optional extra on all bridles.

	Length	Width	
Pony	20cm (8")	5cm (2")	444304
Cob / Full	24cm (9 ½")	6cm (2 ½")	444308

H. Gullet Safety Strap - 16mm

	Length Min.	Max	
Pony	12cm (5")	18cm (7")	444070
Cob/full	18cm (7")	22cm (9")	432180

Gullet safety strap connects the noseband to the throatlash. Helps to prevent the bridle being accidentally pulled off, particularly in multiples.

(Ring on noseband end for lead rope attachment if required.)

Gullet strap in situ

When choosing separate parts, check that strap widths and buckles sizes are compatible.

I. Browband 19mm (¾")

Supplied in Classic, Elite and ZGB

A. Noseband - 19mm

Double buckle adjustment. Padded chin.

Supplied in Classic, Elite and ZGB. (See Fine Noseband for pony size).

	Length Min.	Max.	
Cob	53cm (21")	71cm (28")	431412
Full	61cm (24")	78cm (31")	431418
Extra Full	68cm (26 3/4")	87cm (34 1/4")	431419

B. Fine Noseband - 13mm

Supplied in Classic Pony & Patent bridles.

	Length Min.	Max.	Width	
Shetland	48cm (19")	63cm (25")	13mm (1/2")	444105
Pony	48cm (19")	63cm (25")	13mm (1/2")	444108

C. Flash Converter & Strap

Size	Length	Code
Shetland	60cm (24")	431401
Pony	66cm (26")	431402
Cob	68cm (27")	431406
Full	71cm (28")	431408
Extra Full	75cm (30")	431410

D. Noseband Hangers

Allows noseband and cheeks to move independently of each other, enabling unrestricted movement of the bit.

	Length	Width	
Shetland	23cm (9")	13mm (1/2")	431445
Pony	28cm (11")	13mm (1/2")	431446
Cob	33cm (13")	19mm (3/4")	431447
Full	36cm (14")	19mm (3/4")	431448
Extra Full	39cm (15")	19mm (3/4")	431449

E. Bit Lifter

Bit lifters serve dual purposes.

- 1) If a horse is inclined to get its tongue over the bit, the bit lifter can alleviate the problem by suspending the bit higher in the horse's mouth, without the need to use a tight flash noseband (which can create resistance).
- 2) For team or tandem leaders, who are required to work up into the bit contact, the bit lifter can lighten the contact, enabling light mouthed horses to have more confidence to work into the contact.

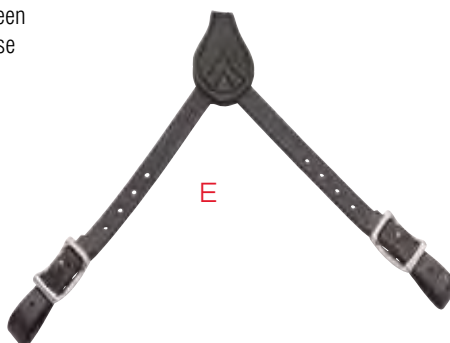

Small	431392	(pony)
Medium/large	431398	(cob/full)

F. Open Cheek Straps (Pair)

For driving bridles without blinkers. Permits full vision for the horse.

Warning: Open cheeks should only be used on horses that have been specifically trained to work in an open bridle. It is dangerous to use them on a horse that has always been trained in full blinkers.

	Length Min.	Max	Width	
Pony	24cm (9 1/2")	31cm (12")	13mm (1/2")	444045
Cob	27cm (10 1/2")	35cm (14")	19mm (3/4")	431306
Full	30cm (12")	38cm (15")	19mm (3/4")	431308

A. Blinkers - Standard - 13 -19mm

Supplied with Classic, Elite and ZGB harness. Rolled wire-filled stays can be shaped for a customised view. Pony and Large Pony size are proportioned to suit smaller heads.

	Length Min.	Max.	Cheek Width	
Shetland	20cm (7 ¾")	24cm (9")	13mm (½")	444137
Pony	24cm (9")	31cm (12")	13mm (½")	444139
Large Pony	27cm (11")	35cm (14")	19mm (¾")	431415
Cob	27cm (11")	35cm (14")	19mm (¾")	431417
Full	30cm (12")	38cm (15")	19mm (¾")	431421
Extra Full	34cm (13")	42cm (17")	19mm (¾")	431426

B. Blinkers - Fine Patent 13mm

Narrow strapping. Rolled, wire-filled stays may be shaped for a customised view. Supplied in Fine Bridles

	Length Min.	Max.	Cheek Width	
Shetland	20cm (7 ¾")	24cm (9")	13mm (½")	444282
Pony	24cm (9")	31cm (12")	13mm (½")	444284

Note: Patent blinkers with 19mm straps will become available end of 2018, to fit regular Zilco bridles in cob and full size.

C. Blinkers - Ground View Plus

Cut away lower edge for better visibility downwards and forwards, to negotiate uneven ground and obstacles.

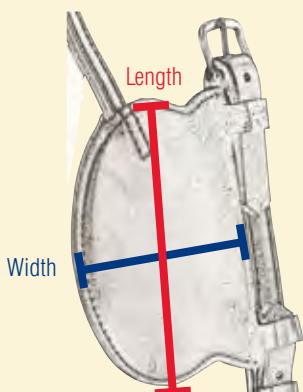

Particularly suited for Team & Tandem Wheelers. Cheeks 19mm (¾") wide.

	Length Min.	Max.	Width	
Pony	24cm (9")	31cm (12")	13mm (½")	444159
Cob	27cm (11")	35cm (14")	19mm (¾")	431517
Full	30cm (12")	38cm (15")	19mm (¾")	431521
X Full	34cm (13")	42cm (17")	19mm (¾")	431526

D. Blinkers - Dolly Varden

Allows wider peripheral vision, while restricting rear vision.

	Length Min.	Max.	Width	
Pony	24cm (9")	31cm (12")	13mm	444149
Cob	27cm (11")	35cm (14")	19mm	431435
Full	30cm (12")	38cm (15")	19mm	431436

BLINKER DIMENSIONS

Standard Round Blinkers

	Length	Width

GREAT REIN OPTIONS!

STANDARD SETS OF HARNESS ARE SUPPLIED WITH Z-GRIP REINS, UNLESS REQUESTED OTHERWISE.

Zilco understand that reins are a very individual choice.
The different Zilco rein materials offer alternative options according to personal preference.

Z-Grip

Front part and billets are brown Zilco coated web.
Hand part is matt brown with a similar weight and appearance to leather.
Synthetic leather sewn stops at intervals along the hand part for extra grip.
Consistent feel in both wet and dry conditions. Cannot stretch. Popular in place of leather reins.

Width Pony - 19mm Cob & Full - 22mm

S-Grip

Front part and billets are Zilco coated web.
Hand part is tightly woven dark brown with rubberised grip for non-slip feel.
Light and comfortable in the hand. Hard wearing and very strong.

Width Front part (all sizes) - 19mm Hand part (all sizes) - 22mm.

R-Grip

Front part and billets are black Zilco coated web.
Hand part is dark brown pliable, contoured rubber. Excellent wet weather grip.
Soft and pliable

Width Front part (all sizes) - 19mm Hand part (all sizes) - 20mm.

REIN ACCESSORIES

A. Rein Coupler

Supplied as standard on all Zilco reins. Can be removed to fit rein joiners or clamps if required. Complete with finger loop

434601 Black
434603 Brown

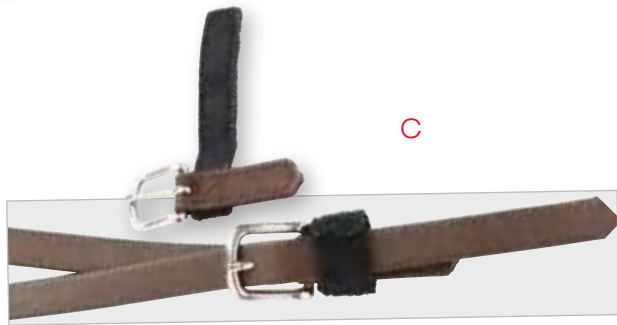

B

B. Elastic Rein Retainer

Fantastic safety product to prevent a dropped rein falling out of the carriage. The end of the retainer is looped around the framework of the carriage and then buckled to the rein end, so a dropped rein can easily be retrieved to regain control and avoid an accident.

The retainer should be attached to the vehicle where it is out of the way of the driver and passenger alighting or dismounting the carriage. It should also be in a position where the passenger or backstep passenger can reach it in the event of the driver getting thrown from the carriage.

434611

C

C. Rein Joiner

Indispensable for driving marathons and obstacles. Also helpful in the execution of dressage movements when holding the reins in one hand is required.

Designed for joining tandem or team reins, and also used by drivers of singles or pairs who may find gripping difficult.

22mm (7/8") buckle with hook & loop closure.

434000 Brown (Sold singly)

D

D. Hand loops - Z-grip

Hand loops can be fitted onto S-GRIP or Z-GRIP single or pair reins. Useful for disabled drivers or any driver who cannot hold the reins in the usual way.

22mm (7/8") slide buckles. Strap width 22mm.

524440 Brown (pair)

Breastplates & Traces - CLASSIC

AS SUPPLIED IN CLASSIC SETS (pages 2-13)

Traditionally styled breastplate with 32mm (1 1/4") trace buckles.

WIDTH: 8.5cm (3 1/3")

Detachable padded lining.

Colour trim may be fitted. (Colour trim options page 45)

Empathy Breastplates

“Mk4” EMPATHY
CONTOURED
BREASTPLATE

Research & Development

The unique, improved “Mk4” Empathy breastplate is a careful blend of ancient and proven harness systems, with new lightweight materials that combine strength, low maintenance and maximum comfort.

Research into the ideal breastplate shape has been meticulously researched right back to the days of the charioteers of ancient Greece. Study of load bearing areas and the horse’s skeletal and muscular anatomy have all been taken into consideration.

The result is a breastplate that combines the load bearing and efficiency of a full breastplate, but with lightness and a more versatile and adjustable fitting.

Design features

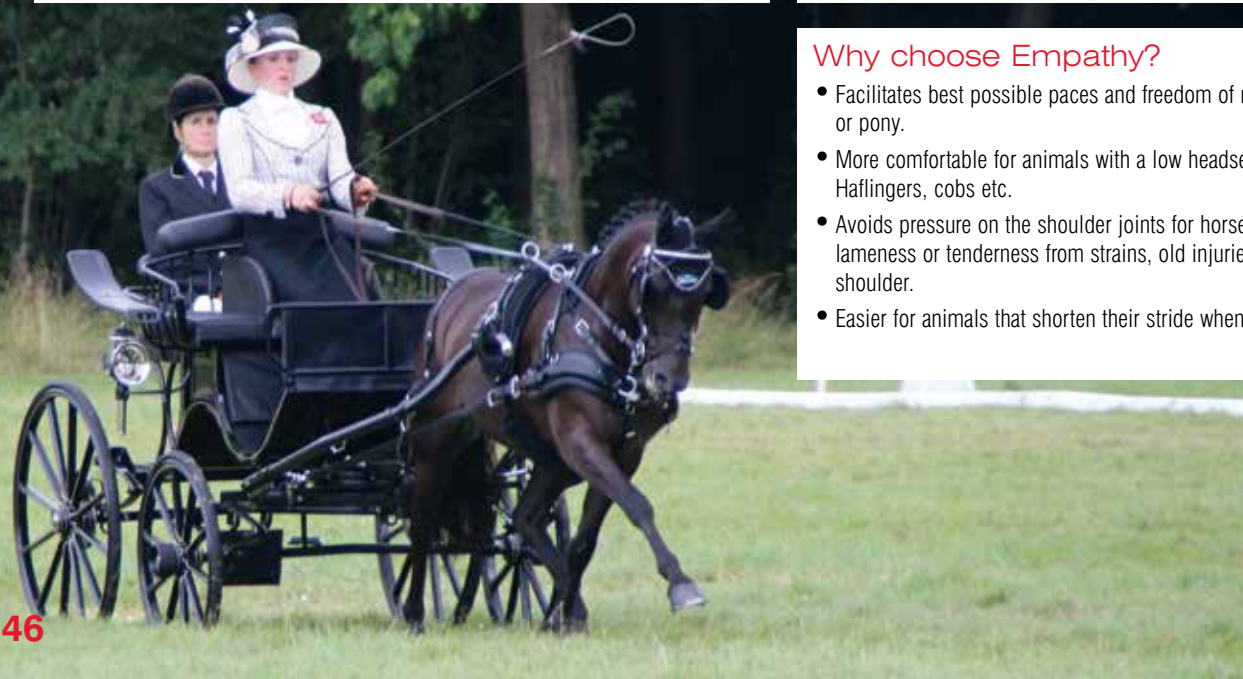

- The “Mk4” Empathy works with the horse’s conformation instead of against it, by allowing greater freedom of movement through the shoulder area, enabling the horse to pull a load with minimal restriction to limb movement or pressure on the shoulder joint.
- Quick release with a pivoting ring, to enable the collar to rotate with the movement of the horse’s shoulders for greater freedom of stride regardless of the line of draft.
- The main body of the collar is suitable for either single or pair. Easy to convert from single to pair simply by changing the QR buckle ends.
- The uptug to the wither strap has three possible positions to allow adjustment to suit different shaped horses.

Materials and Fittings

- Sturdy construction to maintain the curved shape.
- Central inner core of Zilco strapping for maximum strength under the toughest of marathon conditions.
- Soft padded waffle lining on bearing surfaces of the breastplate, wither and martingale.
- Quick Release connection for traces.
- High quality Stainless Steel fittings.

Why choose Empathy?

- Facilitates best possible paces and freedom of movement in any horse or pony.
- More comfortable for animals with a low headset. For example Haflingers, cobs etc.
- Avoids pressure on the shoulder joints for horses with shoulder lameness or tenderness from strains, old injuries or stiffness in the shoulder.
- Easier for animals that shorten their stride when in draft.

SINGLE

A

A. "Mk4" Empathy Breastplate - for SINGLE

Pony	480222
Cob	480322
Full	480422

Comprises the following parts.

- 1 x Empathy Breastplate (curved part)
- 1 x Wither Strap
- 1 x Brake strap
- 1 x Martingale
- 1 pr x Quick Release 32mm Trace Fittings (For single use)

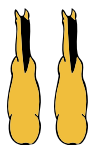

(See page 48 for individual parts)

Empathy Collars are
OPTIONAL with Classic
Harness sets.

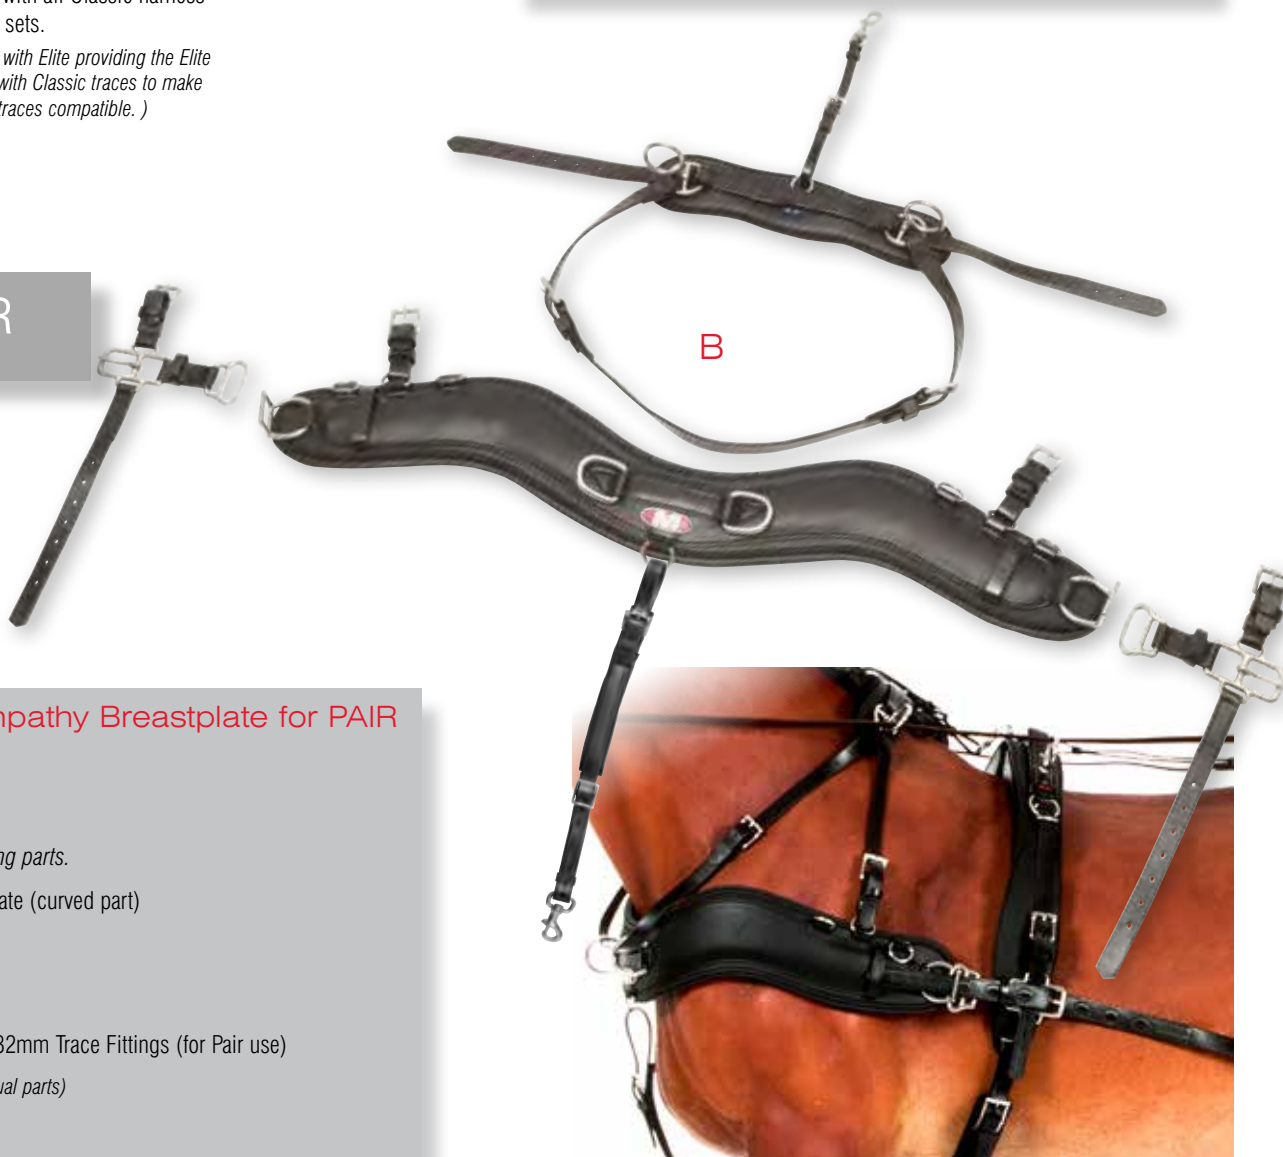

The trace buckle on Empathy collars is 32mm and suitable for Classic traces, therefore easily compatible with all Classic harness sets.

(It is possible to use with Elite providing the Elite traces are replaced with Classic traces to make buckles and traces compatible.)

PAIR

B

B. "Mk4" Empathy Breastplate for PAIR

Pony	481222
Cob	481322
Full	481422

Comprises the following parts.

- 1 x Empathy Breastplate (curved part)
- 1 x Wither Strap
- 1 x Retaining Strap
- 1 x Brake Strap
- 1 x Martingale
- 1 pr x Quick Release 32mm Trace Fittings (for Pair use)

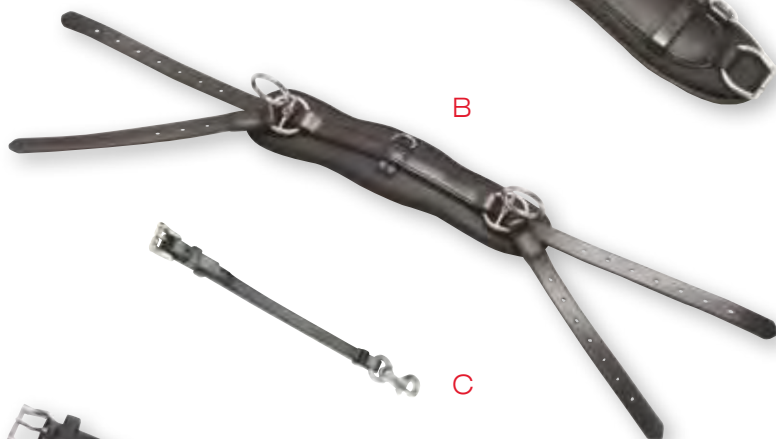

(See page 48 for individual parts)

A. Breastplate - curved part

Can be used for single or pair. Moveable uprights that can be positioned to suit different horse types.

481223	Pony	85cm (33 1/2")
481323	Cob	100cm (39 1/3")
481423	Full	112cm (44")

B. Wither Strap

Pivoting rein rings. Waffle lined. 25mm wither straps.

480228	Pony	86cm (34")
480328	Cob	95cm (37 1/2")
480428	Full	105cm (41 1/3")

C. Retainer Strap

With quick release snap for easy attachment.

444923	Pony	18-23cm (7"-9")
444924	Cob	23-28cm (9"-11")
444925	Full	25-30cm (10"-12")

(Supplied with pair Empathy collars to connect wither to saddle for extra stability.)

D. Brake / balance Strap

420235	Pony	48cm (19")
420245	Cob	61cm (24")
420255	Full	66cm (26")

E. False Martingale

Quick release snap for easy attachment to girth. Waffle padding.

480229	Pony	49-58cm (19 1/3"-23")
480329	Cob	57-71cm (22 1/2"-28")
480429	Full	71-85cm (28"-33 1/2")

F. Quick Release Trace Buckles for SINGLES

For use with single harness. Universal size to fit pony, cob or full. Suitable for Classic 32mm traces.

480022 18cm (7")

Sold in pairs.

G. Quick Release Trace Buckles for PAIR

For use with pair harness. Universal size to fit pony, cob or full. Suitable for Classic 32mm traces.

481022 19.5cm (7 3/4")

Sold in pairs.

H. Buckle uptug only - 25mm (1")

480011 (Each)

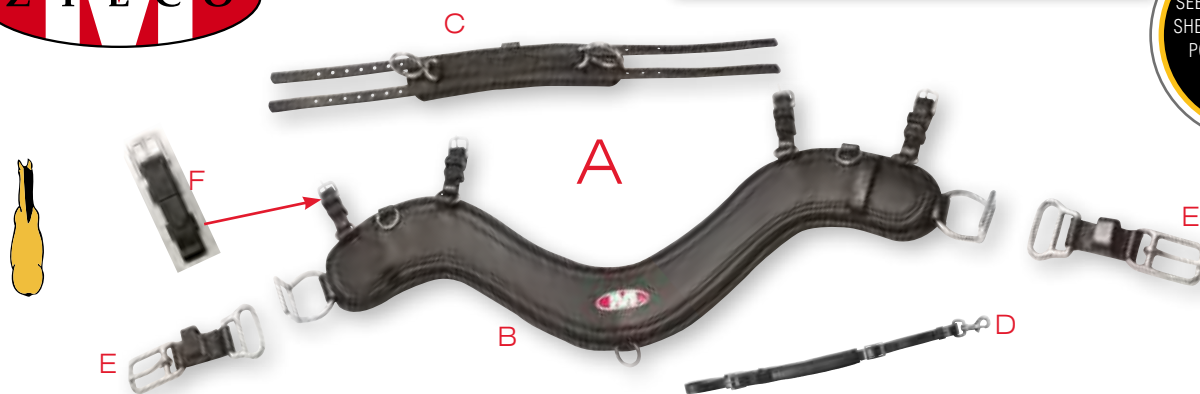

SMALL PONY - SINGLE

Empathy Collars Mk.3 Suitable for smaller ponies.

B. Breastplate - curved part
Including buckle uptugs.
480024 70cm (27 1/2")

C. Wither Strap - 16mm
448704 64cm (25")

D. False Martingale - 16mm
480129 46-54cm (18"-21 1/4")

E. QR Trace Buckles - 32mm
480022 18cm (7")
Also available in 25mm to fit SL traces. See SL pages 83-84 for information.)

F. Buckle uptug only - 16mm
480010 (Each)

A. Small Pony "Mk3" Empathy For Single Harness

Size small pony - 480122

Comprises the following parts:

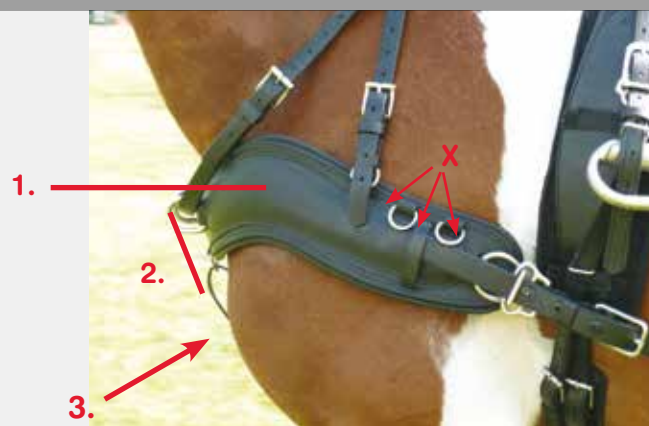

- 1 x Empathy Breastplate (curved part)
- 1 x Wither Strap - 16mm straps
- 1 x Martingale - 16 mm
- 1 x Quick Release Trace Fittings 32mm (Pair)

Note: This model is for single only. It does not convert to pair.

EMPATHY FITTING INSTRUCTIONS

It is important to pay attention to correct fitting. This is not a straight breastplate. (There is a tendency to fit it too low where a breastplate would usually lie).

Position the breastplate so that it lies flat against the horse's chest (Angle fit) and at the correct height to leave the windpipe free, and the points of the shoulder free (Height fit).

Once you have fitted the breastplate, there is a little more work to do!

Observe carefully the first few times you use the Empathy Breastplate to see if your adjustments are working.

- Is the breastplate staying flat against the horse when he is in draft? Get someone on the ground to walk alongside and watch, or record with the Slo-Mo video feature on your phone. It may be necessary to make further adjustments until you are satisfied that the breastplate is positioned correctly. Be aware that you need to work the horse in his new breastplate regularly before going off to do a tough marathon. The bearing area is slightly different to a straight breastplate. You need to allow the horse time to become accustomed to the new collar. (Like a new pair of running shoes ...you would "wear them in" before running a marathon!)
- Can you see that shoulder joint working and flexing? If you can't see it, the breastplate is too low.
- Every horse is a slightly different shape, so if you use the breastplate on more than one animal, you may need to re-adjust for each one.

The Empathy breastplate is not as long as an ordinary breastplate. This is because it does not need to be! Pressure tests prove that the only part of the collar that really takes heavy pressure against the horse is the front and shoulder area, similar to a traditional neck collar.

1. Height fit

First look at the height at which your breastplate should fit. The bony shoulder joint should be clear of the breastplate, and positioned just below the upward sweep of the breastplate each side. The windpipe should be free of the breastplate, so that the windpipe is not restricted. Adjust the wither support strap to achieve the correct height. There are 3 positions for the wither support straps. (See X) The buckle pieces each side are removable so that you can select which dee works best for your horse. The rear position will suit a wider chested horse, and the front position will suit narrower chest. Once you have established the correct height, you can look at the angle fit.

2. Angle fit

The breastplate should lie against the horse, so that neither the top edge or the bottom edge dig in. The front straps of the wither are the balance straps that allow the collar to fit at the correct angle. Adjust the balance straps so that the collar lies evenly against the horse. All these options are there to be used, and help to custom fit the breastplate to suit the conformation of your particular horse. For example, a horse with a broad chest and low set neck (Fjord, Exmoor, Shetland etc) may need the breastplate to be tipped at a greater angle than a horse with a very upright shoulder or high set neck (Hackney/Gelderlander etc)

3. False Martingale

The martingale is padded, because it needs to fit more snugly than a normal false martingale. This helps to keep the breastplate in the optimum position against the horse.

Rounded dees for connection straps.

Allows saddle connection straps to swivel with the movement of the shafts (single) or breastplate (pairs).

Unique elastomeric flexible tree.

Conforms to the shape of most horses to give good spine clearance.

Flexes with the movement of the horse.

COMFORT DESIGN FLEXIBILITY

Sturdy moulded wear panels.

Excellent protection and durability. Withstands friction from shafts, traces or pole. Recessed stitching for excellent abrasion resistance.

Contoured removable high density foam pads.

Can be positioned to suit each horse's shape via hook and loop attachment.

Pad thickness options available.

Square dee

For use when shaft tugs are required to be secured close to the sides of the horse.

Girth strap and tail of shaft tug both fit through square dee.

Square dee tucks behind girth strap if not required (as shown).

Girth straps

Lined and double stitched for excellent durability.

Classic 25mm

ZGB and Elite 32mm

Saddle Measurements

(Measured of the bearing surface underside):

Size	Length Min	Length Centre	Length Max
Pony	100cm (39 1/8")	120cm (47 1/4")	140cm (55")
Cob	105cm (41 1/8")	125cm (49 1/4")	145cm (57")
Full	115cm (45 1/4")	135cm (53")	155cm (61")
Extra Full	125cm (49 1/4")	145cm (57")	165cm (65 1/8")

See page x for guidance on choosing the correct saddle size

OPTIONS

30mm
45mm
60mm

As supplied in all Classic sets (pages 2-13)

A. Classic Saddle - COB & FULL

Supplied with pads 45mm (1.8 inches)

Width of saddle 100mm. (4 inches)

Cob 444855

Full 444865

B. Classic Saddle - PONY

Supplied with pads 30mm (1.2 inches)

Classic pony saddle has integrated connector straps (instead of a ring) for extra adjustment of shaft loop position.

Width of saddle 100mm. (4 inches)

Pony 444845

(Note: This style will soon be available in cob and full size)

C. Classic Sliding Backband Saddle

For two wheeled vehicles, or four wheeled vehicles with rigid fixed shafts.

Unique design Zilco saddle terrets for free movement of backband. Allows shafts to self balance for a more comfortable ride for both horse and passengers.

	Width of saddle	Pad thickness	
Pony	100mm (4")	32mm	444885
Cob	125mm (5")	45mm	444890
Full	125mm (5")	45mm	444895

D. Classic Team Wheeler Saddle

Supplied as standard in Classic Team harness. The Figure 8 terret gives a clear division between leader and wheeler reins.

Helps to hold the lead rein off the outside of wheeler's neck. (Note: Pony size has integral con straps as B above)

	Width of saddle	Pad thickness	
Pony	100mm (4")	30mm	444872 (inc con straps)
Cob	100mm (4")	45mm	444873
Full	100mm (4")	45mm	444874

E Classic Team Wheeler Saddle with Centre Pedestal Terret

Available as an option (by request) in Classic Team Harness.

Versatile and traditional. Saddle can be used for near or off side wheeler without needing any adjustment.

Pony 444845 + 476022

Cob 444855 + 476022

Full 444865 + 476022

(Page 53 for terrets)

F. Classic Tandem Wheeler Saddle

Figure 8 terrets give clear division between the wheeler reins (bottom ring) and the leader reins (top ring.) (Note: Pony size has integral con straps as B above)

	Width of saddle	Pad thickness	
Pony	100mm (4")	30mm	444877
Cob	100mm (4")	45mm	444878
Full	100mm (4")	45mm	444879

G. Replacement Pads for Classic Saddle (sold in pairs)

	Pad thickness	Length	
Pony	30mm (1 3/16")	38cm	415080
Cob/Full Size	30mm (1 3/16")	44cm	415060
Cob/Full Size	45mm (1 1/2")	44cm	415050

NB. Pony Saddles are supplied with 30mm pads. Cob and Full Saddles are supplied with 45mm pads. Alternative pad widths can be requested when ordering a saddle.

See page 53 for saddle parts and options

ELITE & ZGB SADDLES:
32mm girth straps

60mm
45mm
30mm

As supplied in ELITE and ZGB sets (pages 2-13)

GIRTH STRAPS - 32mm (1.25")
SADDLE WIDTH - 125mm (5")
PAD THICKNESS - 45mm (30mm or 60mm pads optional)

A. ZGB Saddle - 125mm width

	Width	Pad thickness	
Cob	125mm (5")	45mm	432847
Full	125mm (5")	45mm	432848
Extra Full	125mm (5")	45mm	432849

B. ZGB / ELITE Team Wheeler Saddle

With figure 8 Terret

Supplied as standard in ELITE and ZGB Team harness. The Figure 8 terret gives a clear division between leader and wheel reins. Helps to hold the lead rein off the outside of wheeler's neck.

	Width	Pad thickness	
Cob	125mm (5")	45mm	432853
Full	125mm (5")	45mm	432854
Extra Full	125mm (5")	45mm	432855

C. ZGB / ELITE Team Wheeler Saddle

With Centre Pedestal

Available as an option (by request) in ZGB / ELITE Team Harness.

Versatile traditional design which can be used on both near or off side wheeler. without needing any adjustment.

	Width	Pad thickness	
Cob	125mm (5")	45mm	432857
Full	125mm (5")	45mm	432858
Extra Full	125mm (5")	45mm	432859

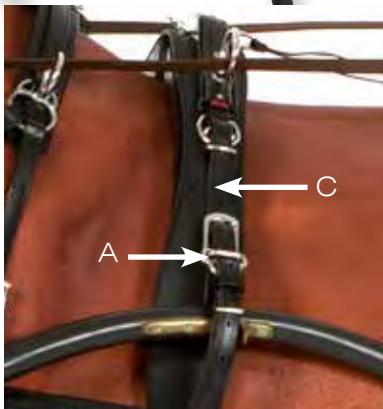

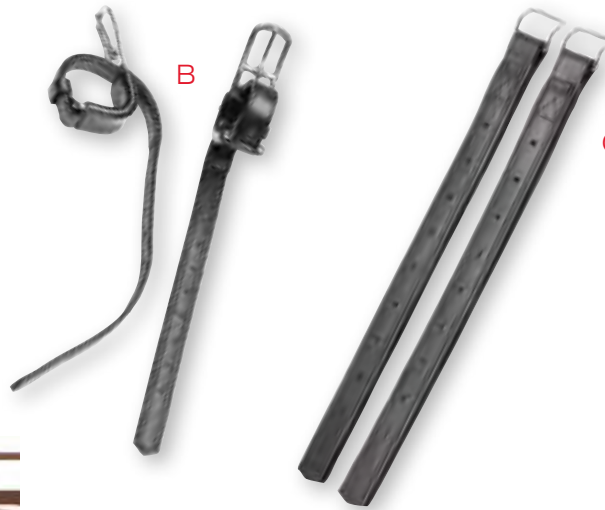

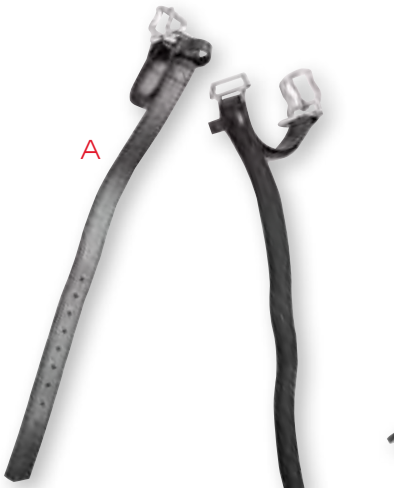

Replacement pads for Elite & ZGB saddles

D. Replacement ZGB / Elite Pads (sold in pairs)

	Pad thickness	Length	
Extra thick	60mm	44cm	415000
Thick	45mm (1 1/2")	44cm	415010
Medium	30mm (1 3/8")	44cm	415020

NB. Complete saddles are supplied with 45mm pads unless requested otherwise. Alternative pad thicknesses can be specified at time of ordering.

ELITE & ZGB - 32mm

CLASSIC - 25mm

A. Tugs - Quick Release - 32mm (1 1/4")
 Supplied in standard Classic sets 444815 (pair)

A. Tugs - Quick Release 25mm (1")
 Supplied in standard ZGB/Elite sets 444813. (pair)

B. Tugs - Tilbury - 32mm - (1 1/4")
 Tilbury tugs attach tightly to the shafts, so horse and carriage move together.
 Optional in Elite / ZGB Single Harness.
 433011 (pair)

B. Tugs - Tilbury 25mm (1")
 Tilbury tugs attach tightly to the shafts, so horse and carriage move together.
 Optional in Classic Single Harness.
 433010 (pair)

C. Saddle Connecting Straps - 32mm
 32mm (1 1/4") (pair)
 Cob 47cm (18 1/2") 433027

 Pony 42cm (16 1/2") 433006
 Cob 47cm (18 1/2") 433007
 Full 52cm (20 1/2") 433008
 Extra Full 57cm (22 1/2") 433009

Terrets

- a Team Pedestal 476022 (each)
- b Figure 8 476020 (each)
- c Small Tandem 476014 (each)
- d Small 525055 (pair)
- e Large 433590 (pair)

D NEW! Quick Release Marathon Tugs

Designed for use with telescopic shafts. Extra straps anchor the tug firmly to the side of the saddle to limit vertical and horizontal movement and enable the telescopic function to operate more efficiently.
 Optional in Elite / ZGB Single Harness.
 32mm (1 1/4") 444825 (pair)

D NEW! Quick Release Marathon Tugs

Designed for use with telescopic shafts. Extra straps anchor the tug firmly to the side of the saddle to limit vertical and horizontal movement and enable the telescopic function to operate more efficiently.
 Optional in Classic Single Harness.
 25mm (1") 444823 (pair)

CLASSIC sliding backband options

E. Shaft Loops

For use with Classic Sliding Backband Harness. Enables the shafts to "float" in the shaft loops for a balanced and comfortable ride. (For use with long backband only, see G.)
 444795 Pair

G Backband Only - Short

Suitable for 444813 Quick Release shaft loops (A) only.
 Pony 100cm (39") 444907
 Cob 105cm (41") 444908
 Full 125cm (49") 444909

F. Locking device for sliding backband

If the sliding movement of backband needs to be restricted, this Conway buckle can be fitted below each terret to limit the amount of movement. (Useful if switching between two and four wheeled vehicles, or between fixed shaft and independent shaft vehicles)
 25mm (1") 980907 Each
 (Also available in 32mm for Tedex harness, see page 97)

H. Backband Only - Long

Suitable for 444795 shaft loops (D) only
 Pony 192cm (75 1/2") 444901
 Cob 200cm (79") 444902
 Full 205cm (81") 444903

ELITE & ZGB - 32mm

A. Elite / ZGB Girth

Shaped and padded with PVC waffle material. Soft keepers to prevent pinching behind the elbow. Central dee for easy connection to false martingale.

Buckles: 32mm (1 1/4")

Cob	50cm (20")	432406

E. Trace Carry Strap

Pairs/Wheelers without breeching.

Extra long for use with Pairs or Team Wheelers that are not using breeching. The long length accommodates low traces for dressage or marathon carriages. (Each)

170-265cm (67-104")	445600
---------------------	--------

F. Leader Bungees

Designed for use with team leader traces (page 63) and leader cruppers (page 58).

Dual purpose: Connects leader crupper dock to upward dee on trace to hold up trace and help prevent a leg over the trace. Also used to connect girth to downward dee on trace, to stop the traces flipping up over the horse's hindquarters on tight turns. (Pair)

445213	Small	54-85cm (21-33")
445215	Medium	63-100cm (25-39")
445217	Large	68-115cm (27-45")

G. Bungee Tandem Trace Carriers

Multi-adjustable elastic straps to connect the rein ring on the wheeler breastplate neck strap to the small dees on the Tandem Leader Traces.

This keeps the traces higher, to prevent the leader and wheeler horse from getting their legs over the trace. The elastic allows ample stretch when required for turns etc. (Pair)

445201	75cm (29 1/2") to 110cm (43")
--------	-------------------------------

H. Quick Release Kicking Strap

Fits over the hindquarters and attaches to the carriage shafts. Helps to prevent bucking.

Quick release fittings both sides for safe, easy removal in an emergency.

One Size	124-188cm (49-74")	444491
----------	--------------------	--------

I. Short Kicking Strap - German model.

Kicking straps are compulsory on singles for competitions in Germany.

The QR part attaches around the shaft.

The billet end buckles onto the breeching ring.

444495 (Pair)

A. Standard Crupper

Improved design crupper to flatter against the horses back. Soft, foam-padded dock.

Size	Length Min.	Max.	Cat No
Pony	80cm (31 1/2")	95cm (37 1/2")	444459
Cob	90cm (35 1/2")	105cm (41 1/3")	444463
Full	100cm (39")	125cm (49 1/4")	444467
Extra Full	105cm (41 1/3")	140cm (55")	444469.

B. Crupper - Fixed Dock

As the standard crupper, but with dock sewn in place. Popular for tandem and team leaders as there are no dock buckles to catch the leader rein.

Size	Length Min.	Max.	Cat No
Pony	80cm (31 1/2")	95cm (37 1/2")	444460
Cob	90cm (35 1/2")	105cm (41 1/3")	444464
Full	100cm (39")	125cm (49 1/4")	444466
Extra Full	105cm (41 1/3")	140cm (55")	444470

C. Tail Tie Crupper

As standard model but with a rigid dock, designed to secure the horse's tail and prevent it being flicked over the reins. Popular for tandem and team leaders.

Size	Length Min.	Max.	Cat No
Full	90cm (35 1/2")	130cm (51")	444476

D. Leader Crupper - fixed dock and dees for bungees.

No buckles on dock. Dees fitted for the connection of bungee straps. (See page 62 for bungees). Popular for tandem or team leaders, giving a bungee connection point to rear. Designed for team and tandem leader traces (page 63).

Size	Length Min.	Max.	Cat No
Pony	80cm (31 1/2")	95cm (37 1/2")	444503
Cob	90cm (35 1/2")	105cm (41 ")	444505
Full	100cm (39")	125cm (49 ")	444507

E. Standard Dock (Dock only.)

Original Zilco crupper dock with smooth construction to reduce rubbing. Can be shaped to the required position for each individual horse.

444448 Each

F. Soft Dock (Dock only)

Soft, flexible dock with foam padding.

444446 Each

G Tail Tie Dock (dock only)

Rigid dock to secure the horse's tail and prevent it being flicked over the reins. Popular for tandem and team leaders.

444450 Each

Pole straps

A. Standard PONY Pole Straps
25mm (1")

As supplied in CLASSIC Pony Pair and Team Harness.

32mm (1 1/4")

As supplied in ZGB/ELITE Team Harness (Cob/Full/XFull)
45cm (18") - 62cm (24") 432518

Roger rings

H. Roger Rings - Small

As supplied in SHETLAND SL team and tandem (pages 78-79)
Straps 13mm Rings 32 x 32mm 445162

I. Roger Rings - Medium

As supplied in Pony Classic Tandem & Team Harness
Straps 13mm Rings 65 x 35mm 432530

J. Roger Rings - Large

As supplied in Cob/Full Size/Extra Full ZGB/ELITE/CLASSIC
Straps 19mm Rings 85 x 45mm 432535

BRUN Harness

Aesthetically traditional with all the advantages of modern synthetic materials.

Why choose Brun?

Brun is a combination style harness for single, pair or team, making it easy for transition to multiples. Aesthetic natural matt brown colour combined with the easy maintenance and marathon strength of Zilco's synthetic strapping.

Popular paired with traditional type carriages and natural colours in the show ring, dressage, marathon and pleasure driving.

Brun parts are interchangeable throughout the size range and combinations.

A great multi purpose harness with subtle natural colour!

SIZES

Pony, Cob, Full.
(Sizes can be mixed)

COMBINATIONS

Single, pair and team

FEATURES

Combination breastplate.
Quick release tugs to suit all shaft styles.

SL Harness for small ponies

Elegantly proportioned to suit Minis, Shetlands and Small Ponies.

Why choose SL?

Ponies don't come in standard sizes!
SL is designed to offer multiple choices of mix and match parts to achieve the correct fit.

Whatever your aspirations, SL harness can grow with your ambitions to accommodate single, pairs, tandems and teams!

SL is a lightweight combination of elegance, strength and super easy maintenance.

Suitable for all driving activities, including tough marathon conditions.

A versatile choice for a wide variety of small pony types and breeds.

SIZES

Mini, Shetland and Small Pony
(Sizes can be mixed)

COMBINATIONS

Single, pair, tandem and team

FEATURES

Fine strapping to suit small animals. Flexible options.

SL Standard Specification:

SL BRIDLE	Versatile design to accommodate thick forelocks and broad foreheads. Extra length browband to allow the independant throatlash to sit behind from the headpiece. This is a safety feature to help prevent ponies with thick manes and small ears from scratching their bridles off.
BLINKERS	Elegantly shaped to show off pony heads. Winker stays with wire core to allow shaping.
REINS	S-Grip handparts with black front part.
BREASTPLATE	Simple design to suit small ponies. 25mm buckles for traces.
TRACES	25mm (1 inch) with D & slot attachment to suit different vehicle styles.
SADDLE	SL FLEXI Treeless design suitable for rounded pony shapes. (See options for alternative styles). Soft waffle covered padding.
GIRTH STRAPS	25mm (1 inch) lined and edge stitched.
GIRTH	Soft waffle padding. Soft "no pinch" keepers. Buckles 25mm (1 inch).
TUGS	Tugs adjustable for size to suit different shaft dimensions.
BREECHING	Comfortable padded seat with single hip strap.
CRUPPER	Soft waffle dock with buckle adjustment on nearside.
STRAPPING	Strong flexible smooth Zilco strapping for easy wipe clean maintenance.

Average weight per standard single set - Mini 4 kg / Shetland 4.5 kg / Small Pony 4.6 kg.
Each SL set is supplied in a ventilated harness bag

SL SIZE GUIDE

Small ponies vary in stature depending on type and breed. SL sets can be supplied in standard sizes, or parts can be interchanged to achieve the correct fit. As a general guide, the standard sizes are based on :

SL MINI - Small miniature ponies and taller fine miniature horses up to approx 38 inches (97cm).

SL SHETLAND- Shetland type ponies up to approx. 11.2hh (117cm) depending on breed and build.

SMALL PONY - Small native breeds or types for example Dartmoor, Welsh Mountain and small Sec B Welsh.

FITTING TIPS: Girth circumference is the best indication of the required size. See pages 110- 111 for measuring and harness fitting guidance.

SL options and extras CHOOSE AND CUSTOMISE!

Bridles

Deluxe bridle (Shetland & Small Pony sizes) - Standard style headpiece, independant noseband and Zilco decorative rosettes. Plain or silver clincher browband. Flash noseband if required. Patent or plain blinkers. Open cheeks (no blinkers) - Shetland size only.

Empathy Breastplates

Contoured breastplates perfect for Shetlands and small ponies with low headset. (Shetland and Small Pony sizes)

Saddles

Choice of THREE saddle styles: SL Flexi Treeless saddle - Deluxe saddle with tree - Deluxe saddle with tree and sliding backband.

Shaft tugs

Quick release tugs

Team and pair harness:

Trace carriers in place of breechings (page 86)

False martingales

Optional in single sets. (Supplied as standard in pairs and teams)

Pages 74-77 for STANDARD SETS
Pages 78-86 for INDIVIDUAL PARTS

TIMELESS APPEAL

Popular with grass roots and everyday drivers for over 30 years!

Why choose Pads?

FUNCTIONALITY

Padding under pressure areas for extra shock absorbancy to help the horse to work comfortably.

PRACTICALITY

Bearing surfaces are protected from dirt and grease. Pads and liners are detachable and easy to wash. Touch tape straps for easy attachment to harness.

INDIVIDUALITY & IDENTITY

Colours to compliment team colours and give individuality to the whole turnout.

Page 33 for matching coloured browbands.

Page 45 for colour trim.

Page 102 for coloured underhalters.

Driva Gel-Lite Pads

Gel-Lite is a lightweight gel with excellent impact and pressure absorption. The gel core is covered with a cotton mesh upper and a breathable lining for comfort and easy cleaning. Available in black only.

Elite/ZGB	50mm x 100cm	452061
Elite/ZGB	50mm x 130cm	452081

Underhalters

D. Underhalter - Soft weave PP web.

Designed for underneath a driving bridle. Discreet and lightweight. NP buckle.

Some competitions require halters to be worn with a driving bridle for safety reasons.

Meets these requirements without adding weight or bulk.

Training

A. Training Roller Only

Professional training roller for lunging, long reining and breaking. Complete with stainless steel terrets and 8 stainless steel dees. Soft waffle padding and a double girth points to fit a variety of horses.

631521 Uni-size

A + B. Training Roller & Girth Set

Roller supplied with PVC 2 buckle lonsdale girth in your choice of size - 45cm to 85cm (5cm increments.)

Specify horse size with order.

631541 Roller + Girth

C. Quick Release Kicking Strap

Fits over the hindquarters and attaches to the carriage shafts. Helps to prevent bucking.

Quick release fittings both sides for safe, easy removal in an emergency.

One Size 124-188cm (49-74") 444491

D. Short Kicking Strap -German model.

Kicking straps are compulsory on singles for competitions in Germany.

The QR part attaches around the shaft.

The billet end buckles onto the breeching ring.

444495 (Pair)

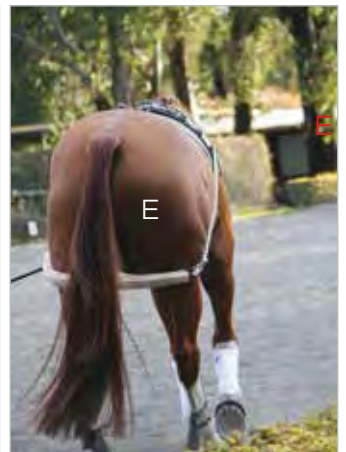

E. Zilco Lunge Training System

Draw rein and padded breeching. Helps to establish balance, correct shape and development of back muscles.

Soft white cord. Fully adjustable for horses and ponies.

631400

(Does not include bridle, lunge cavesson, training roller, girth or lunge rein).

Quick Release

F. Quick Release Snap Shackles

Stainless steel

10cm (4") 476100

13cm (5") 476105

G. Rein Snap

Stainless steel snap hook. Popular as a quick release connection between crupper and saddle or for breeching straps.

984517 19mm (¾")

984519 25mm (1")

H. Trigger Snap

Stainless steel 984530 25mm (1")

I. Quick Release Pull Tab

Web tab for attaching to ring of quick release snap shackles for easier release.

432911 Black

11.5cm (4 1/2")	19mm	120mm	121205
12.5cm (5")	19mm	120mm	121206
14cm (5 1/2")	19mm	120mm	121207

E. Low Port Butterfly with Cherry Rollers

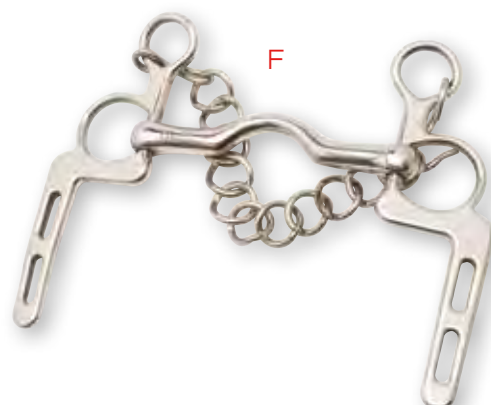

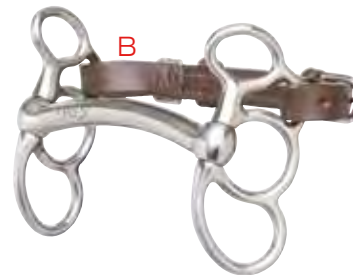

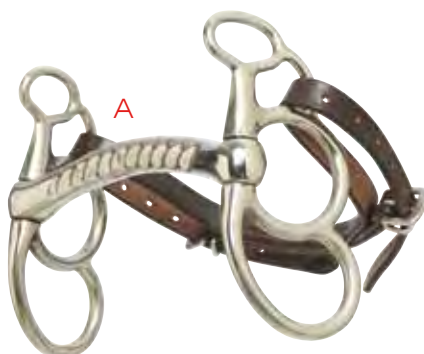

Fixed cheeks with copper rollers on mouthpiece to encourage play. Port mouth to prevent the horse from getting his tongue over the bit. Fixed cheeks. Single link curb chain.

Size	Thickness	Cheek Length	Code
12.5cm (5")	21mm	150mm	121406
14cm (5 1/2")	21mm	150mm	121408
15.25cm (6")	21mm	150mm	121410

F. Military Elbow Bit

Same action as a Liverpool bit, but the cheeks are set back to stop the horse grabbing the bit and prevents pinching of the upper lips. Three cheek settings for varying degrees of curb action. Smooth mouthpiece both sides. Single link curb chain.

Size	Thickness	Slots	Length	Code
5" (12.5cm)	16mm	2	180mm	121226
5 1/2" (14cm)	16mm	2	180mm	121228
6" (15.25cm)	16mm	2	180mm	121230

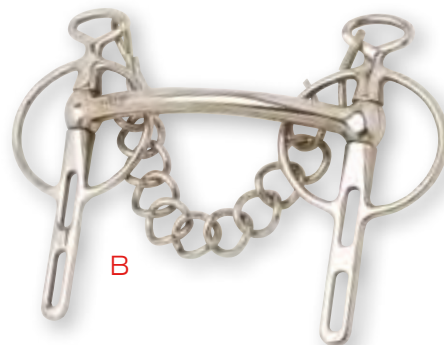

Liverpool Bits

A. Straight Mouth - Swivel Cheeks

Reversible mouthpiece. Smooth one side. Ribbed on the reverse. Single link curb chain.

Size	Thickness	Slots	Cheek	Code
11.5cm (4 1/2")	17mm	2	140mm	121314
12.5cm (5")	17mm	2	165mm	121316
14cm (5 1/2")	17mm	3	210mm	121318

B. Mullen Mouth - Swivel Cheek

Similar action to the Arched Mouth, but the mouthpiece curves forward in a traditional mullen style. Single link curb chain.

Size	Thickness	Slots	Cheek	Code
11.5cm (4 1/2")	15mm	2	140mm	121304
12.5cm (5")	15mm	2	165mm	121306
14cm (5 1/2")	15mm	3	210mm	121308

A

B

C. Arched Mouth - Sliding Cheeks

Mouthpiece can slide up and down a few millimetres on the cheek. Preferred by horses that like to "play" with the mouthpiece, encouraging salivation and softness. Reversible mouthpiece. Smooth one side. Ribbed on the reverse.

Size	Thickness	Slots	Cheek	Code
11.5cm (4 1/2")	13mm	2	165mm	121244
12.5cm (5")	14mm	3	190mm	121246
14cm (5 1/2")	14mm	3	190mm	121248
15.25cm (6")	14mm	3	190mm	121250

C

D

D. Arched Mouth - Fixed Cheeks

Fixed cheekpieces are ideal for pairs or teams because the cheek pieces retain position for the coupling reins, and cannot rotate and pinch the upper lips. Also preferred by horses that like a rigid bit structure that is always consistent.

Size	Thickness	Slots	Cheek	Code
12.5cm (5")	14mm	2	165mm	121236
14cm (5 1/2")	14mm	2	165mm	121238
15.25cm (6")	16mm	2	165mm	121240

E

F

E. White Mouth - Swivel Cheeks

Soft contoured white mouthpiece to encourage relaxation. Leather curb strap for "no pinch" comfort.

Size	Thickness	Slots	Cheek	Code
11.5cm (4 1/2")	20mm	2	165mm	121294
12.5cm (5")	20mm	3	190mm	121296

15.25cm (6")	20mm	3	190mm	121300

F. Straight Mouth - Single Slot

Mouthpiece can slide up and down a few millimetres on the cheek. Preferred by horses that like to "play" with the mouthpiece, encouraging salivation and softness. Reversible mouthpiece. Smooth one side. Ribbed on the reverse. Single link curb chain.

Size	Thickness	Slots	Cheek	Code
11.5cm (4 1/2")	13mm	1	120mm	121254
12.5cm (5")	13mm	1	120mm	121256
14cm (5 1/2")	13mm	1	120mm	121258

G. Jointed Mouth

Plain jointed mouthpiece. Acts on the tongue and bars with a nutcracker action. Leather curb strap for "no pinch" comfort

Size	Thickness	Slots	Cheek	Code
11.5cm (4 1/2")	12mm	2	165mm	121284
12.5cm (5")	12mm	3	190mm	121286
14cm (5 1/2")	12mm	3	190mm	121288
15.25cm (6")	12mm	3	190mm	121290

H. Half Liverpool with Curved Port Mouth

Anatomically curved mouthpiece to relieve pressure on the tongue. Leather curb strap for "no pinch" comfort.

Size	Thickness	Slots	Cheek	Code
11.5cm (4 1/2")	12mm	2	140mm	121344
12.5cm (5")	12mm	2	140mm	121346
14cm (5 1/2")	12mm	2	140mm	121348

I. Low Port with Cherry Rollers

Fixed cheekpieces to prevent pinching of the lips. Copper rollers to encourage play. Low port for more tongue room and prevents the horse from getting his tongue over the bit. Single link curb chain.

Size	Thickness	Slots	Cheek	Code
14cm (5 1/2")	21mm	2	165mm	121278
15.25cm (6")	21mm	2	165mm	121280

J. High Shank with Jaw Bar

For use with multiples. Fixed cheeks to prevent pinching of the lips. High shank for extra leverage and poll pressure. Bottom bar prevents the reins from becoming tangled. Single link curb chain

Size	Thickness	Slots	Cheek	Code
12.5cm (5")	21mm	3	240mm	121266
14cm (5 1/2")	21mm	3	240mm	121268
15.25cm (6")	21mm	3	240mm	121270

KEY INFORMATION FOR SELECTING THE CORRECT SIZE

There are different factors to consider when choosing a size. The most important key information is :

GIRTH CIRCUMFERENCE

Girth circumference is a more accurate gauge than height, because body size is always in proportion to this measurement. Choosing a size by height alone can be misleading because the ratio of body size to leg length varies among different breeds. Breeds like Shetland, Exmoor, Fjord, Haflinger and other similar sturdy breeds tend to have a larger body mass in relation to their height. Finer breeds (eg Hackney, Arab, Thoroughbred etc) tend to have a smaller body mass in relation to their height.

It is easier to gauge the correct size by first establishing the saddle and girth size based on girth circumference. In most cases, the other body parts of the harness will be in proportion to the saddle size. (Saddle size guidelines page 113)

Combine this information with breed type and height to find the most suitable size.

BREED OR TYPE

Bridle size is closely associated with breed or type. For example Fjords, Haflingers or cob types may have broader or larger heads in relation to their height. Lighter breeds may have finer heads in relation to their height. Horses or ponies with very thick forelocks may require a browband one size larger than the rest of the bridle.

The most useful measurement for calculating bridle size is the length of head from corner of lip to top centre of poll.

Zilco bridle parts are listed with their measurements and/or range of adjustment,

CARRIAGE TYPE

Two wheeled vehicles and four wheelers with fixed shafts are better with a sliding backband. Four wheelers with independent shafts require a fixed backband.

Multiple carriages have different pole head designs, which influence the choice of suitable pole straps.

USEFUL INFORMATION FOR YOUR DEALER

Basic size information will help your Zilco supplier to advise the best size required.

- Breed or type
- Circumference of girth
- Height
- Head measurement from corner of lip (where the bit sits), to the centre of the poll
- Type of carriage: two wheels / four wheels / independent shafts / type of fittings for attachment of traces. Pole head design for pairs harness.

SIZING TIPS

- Trace length is related to shaft or pole length and design of carriage.
- The type of trace end is related to the design of the swingle tree.
- Tug style is governed by the design of the shafts
- Length and type of pole straps relates to the design of the pole head.

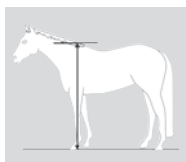

Sizes By Girth Circumference

	ZGB & ELITE	CLASSIC / BRUN/ WEBZ	SL	TEDEX
Miniature			43-55" / 109-140cm	
Shetland			46-65" / 117-166cm	51-61" / 130-153cm

Extra Full	77-91" / 196-231cm			78-89" / 198-226cm

Sizes By Height

(Varies by Breed/Type)

	ZGB & ELITE	CLASSIC / BRUN/ WEBZ	SL	TEDEX
Miniature	-	-	Up to 38" / 97cm	
Shetland	-	-	Up to 11.2 hands / 117cm	Up to 11.2hh / 117cm
Small Pony	-	-	Up to 12.2hh / 127cm	
Pony	-	Up to 13.2hh / 137cm		Up to 13hh / 132cm
Cob	Up to 15hh / 152cm	Up to 15hh / 152cm	-	Up to 14.2hh / 148cm
Full	Up to 16.2hh / 167cm	Up to 16.2hh / 167cm	-	Up to 16hh / 162cm
Extra Full	Over 16.2hh / 167cm			Over 16hh / 162cm

Measuring for Saddle Size

Measure the girth circumference of your horse. Use the guide below to determine the correct saddle and girth combination for an optimum fit.

EXAMPLE 1:

Pony with girth circumference 162cm.

Pony saddle middle holes (120cm) plus length of pony girth 40cm = 162cm

In this example, a pony sized saddle with pony sized girth will give the perfect fit with plenty of adjustment via the holes above and below the middle hole.

EXAMPLE 2:

Cob with girth circumference 178cm.

Cob size saddle shortest holes (105cm) plus length of cob size girth (50cm) = 155cm.

Cob saddle middle holes (125cm) plus cob girth (50cm) = 175cm.

Cob saddle longest holes (145cm) plus cob girth (50cm) = 195cm.

In this example, a cob saddle and girth would be ideal. The middle hole position is very close to the horse's girth circumference, with adjustment above and below the middle hole.

EXAMPLE 3:

Horse with girth circumference 188cm.

Full size saddle shortest holes (115cm) plus length of full size girth (60cm) = 175cm

Full size saddle middle holes (135cm) plus length of full size girth (60cm) = 195cm

Full size saddle longest holes (155cm) plus length of full size girth (60cm) = 215cm

Therefore a full size saddle and girth would be OK, as the horse's girth circumference measurement falls comfortably within the adjustment range. The girth would buckle into the holes 3-4cm below the centre hole of the girth straps, giving good adjustment both ways..

If the measurements fall outside this range, then sometimes a different sized girth can provide the right solution.

Saddle Size

Underside of saddle between:	Shortest Holes	Middle Holes	Longest Holes
Mini Treeless (SL)	75cm (29½")	97cm (38")	114cm (45")
Mini Deluxe (SL)	77cm (30")	97cm (38")	114cm (45")

Frequently Asked Questions

Why are there standard parts listed for every type of harness?

Standard sets as listed in the brochure are based on average popular requirements for each harness size. If your horse needs a mix of parts to obtain an optimum fit, your dealer will advise. Most dealers carry stocks of commonly exchanged parts, such as girths and bridle parts.

How do I select the right size?

Measure girth circumference and look for the size that sits most comfortably midway within the adjustment range. Compare this to height and make any allowances for breed type.

What if my horse/pony needs a mixture of sizes?

Your dealer can advise if it is necessary to mix sizes. For example some broad headed breeds, or horses with thick forelocks may require a longer browband. Trace length may need to be longer or shorter depending on the design of the carriage.

What if I want to customise?

Zilco harness systems are designed to allow flexibility and adjustability so that you can customise to suit your particular turnout. For example Empathy collars, different styles of crupper docks, browband styles, trace fittings, tug types etc. Some multiples may not require breechings. There are choices for trace carriers in place of breechings.

Can I mix and match sizes and specifications?

Most harness parts are interchangeable within one harness type. If selecting non standard parts, check that strap widths are compatible.

Can I return items that don't fit?

Ask your dealer for their terms regarding exchange of parts. Most dealers will have a policy of replacing or exchanging parts provided the part you wish to exchange is as new and returned soon after purchase.

Who do I contact for after sales service?

Your Zilco dealer will help you with any queries or guidance following purchase.

Can I use an Empathy Collar with Elite harness?

Yes, but it is necessary to replace the Elite traces (50mm) with Classic traces (32mm) for compatibility with the Empathy 32mm trace buckles and Quick Release fittings.

How do I clean my Zilco Harness?

Zilco materials require minimal maintenance. However it is advisable to keep the bearing surfaces free of grease, dirt and sweat. After use, this can be rinsed off with water. Mild soap will help to remove grease. Wet harness should be allowed to dry naturally by hanging in a ventilated space out of direct sunlight. Do not use any petroleum based cleaning products, liniments or solvents. This includes oil based fly repellents, oil based or alcohol wound dressings.

What is the life expectancy of a Zilco Harness?

Zilco is renowned for its longevity. The practical working life of a harness depends on the amount of usage, sensible correct harnessing and avoidance of accidents. There are many Zilco harnesses in regular use after more than a decade of reliable service.

What guarantee does Zilco come with?

Zilco harness materials and workmanship are guaranteed for a period of two years from date of purchase. Any negligent or improper use, abuse, accident damage is the responsibility of the user and Zilco shall not be liable for the consequences of improper use. Full details can be found on the Zilco Guarantee Card which is supplied with every Zilco Harness.

Zilco Information

EXPERIENCE

Zilco was established in the early 1960's for the design and production of equestrian equipment using modern synthetic materials to replace leather.

The first Zilco racing harness was produced in Sydney, Australia in 1963. The design and manufacture of regular driving harness began in the 1970's as Zilco's modern materials became increasingly popular.

Production was transferred to Christchurch, New Zealand in 1982.

In 2002, high tech manufacturing facilities were developed in Asia to facilitate increased production capability.

In the same year, Zilco's European office was established to facilitate distribution and customer care for the European driving market.

COLLABORATION

Successful drivers have contributed to the design and development of Zilco harness over the years. Highly respected and successful horseman George Bowman Snr has worked closely on the early modernisation of Zilco harness systems.

Today, top Australian horseman Boyd Exell continues to collaborate and input with generous and practical ideas for the refinement and development required to keep Zilco at the forefront of driving.

Boyd Exell needs no introduction to the driving world, and has contributed to raising standards of training and competition through skill, single minded dedication and attention to detail. He is current World Champion having won this title four times and is FEI World Cup Driving Champion for the seventh time.

DISTRIBUTION

Zilco harness is available through a worldwide network of approved dealers. Zilco dealers are carefully selected for their knowledge and experience of driving.

Most are enthusiastic drivers themselves, enabling them to understand the requirements of both new and experienced drivers.

Correct harnessing is important for the comfort and wellbeing of the horse.

Zilco dealers can advise on measuring and fitting the correct type of harness for your driving activity.

Establishing a good relationship with your Zilco dealer is key to aftersales service and ongoing support for your present and future requirements.

EXCELLENCE!
