Cob	452206	-	452246
Full	452208	-	452248
Extra Full	452209	-	-

Fitting and care instructions.

Ensure that the liner is placed in the centre of the girth/saddle/breastplate. It is important the hook and loop straps are fastened tightly to prevent any slipping. Any excess strapping can simply be trimmed to the correct size.

To keep your wool liner looking soft and fluffy our recommendation would be

to hand wash the liner in warm water using a mild detergent. Washing in a machine on a wool cycle is also an option for heavier soiling if necessary. Washing may change the fluffy appearance of the liner to a more curly appearance more like sheepskin, but this can easily be restored by gently brushing the liner with a firm brush when it is dry.

IF IT'S BRANDED ZILCO, IT'S BRANDED QUALITY.
